Performance Evaluation	Excellent	Good	Fair	Poor	Comments
Job Knowledge				X	Any dumber and he would have to be watered twice a week
Productivity				X	Works well when under constant supervision and cornered like a rat in a trap
Work Quality				X	Since my last report, Lloyd has reached rock bottom and shows signs of starting to dig
Technical Skills				X	This man has delusions of adequacy coupled with the imagination of a 7yr old about what knowledge he actually possess
Work Consistency				X	The only consistent thing about him is his ability to limbo under whatever bar standard you set for him
Enthusiasm				X	The gates are down, the lights are flashing, but the train isn't coming
Cooperation				X	If ever allowed subordinates his men would follow him anywhere, but only out of morbid curiosity
Attitude				X	Similar to that of a 4 yr old. But with less discipline and understanding of how to control emotions
Initiative				X	Has the energy and take charge ability of a 30yr old car battery at the bottom of the ocean
Work Relations				X	Able to interact with other employees the way a drop of water interacts with a pan full of boiling chicken grease
Creativity				X	Undeterminable, as he cannot decide on his own if he should sit to pee. Possibly due to the fact that he's so dense, light bends around him
Punctuality	X				Arrives daily at the same time. Stares at floor, picks toes, reads magazines, watches Mandrel sisters concerts online, and takes 45 min walks 3 times a day
Attendance	X				Shows up every day in hopes of trapping President into hours long conversations centered around his self perceived excellence
Dependability				X	He sets low personal standards and then consistently fails to achieve them
Communication Skills				X	Cannot comprehend requests for information any more complex than - Would you like lemon with your tea
Overall Rating				X	This employee is depriving a village somewhere of an idiot

Opportunities for Development

Brain transplant
 Alien abduction (they would most certainly never return after confirming no intelligent life exists on our planet)

Reviewers Comments

This associate is really not so much of a has-been, but more of a definitely won't be
 I would not allow this man to breed
 When he opens his mouth, it seems that this is only to change whichever foot was previously in there
 It's hard to believe that he beat out 1,000,000 other sperm
